Dwayne Gray has been practicing law in Orlando for over twenty-five (25) years. His practice is focused in the area of transactional real estate (commercial, multi-family and single family residential) real estate finance, zoning, land use, and creditors' rights. He represents local and national developers in connection with the acquisition, development and management of multi-family/garden apartments with a further specialization in Section 42 LIHTC funded multi-family segment. He also represents multi-family developers in connection with the acquisition, development and management of multi-family market transactions. He has extensive experience in commercial and residential real estate matters, including various land use and zoning issues related to the same. He also represents a number of banks in handling commercial real estate and asset based lending matters. Dwayne has extensive experience in special asset workouts, representing a number of national and local financial institutions. He also represents a number of golf course developers and owner/operators and hotel/motel owners and operators. In addition, he represents a number of closely-held corporations in connection with general corporate and business matters.
